

Energy Conservation in Chemotrophic Anaerobic Bacteria

RUDOLF K. THAUER,* KURT JUNGERMANN, AND KARL DECKER

Fachbereich Biologie-Mikrobiologie, Philipps-University Marburg, 3550 Marburg; and Biochemisches Institut, Albert-Ludwigs-Universität Freiburg, 78 Freiburg im Breisgau, Federal Republic of Germany*

Vol. 41, no. 1, p. 131, Table 10: "Clostridium perfringens ($\text{NO}_3^- \rightarrow \text{N}_2$)" should read "Clostridium perfringens ($\text{NO}_3^- \rightarrow \text{NH}_3$)."

Page 133, column 1, line 33: "electron transport system (627)" should read "electron transport system (306)."

Page 135, column 1, line 22: " $2\text{NO}_2^- + \text{H}_2 + 2[\text{H}^+] \rightarrow$ " should read " $2\text{NO}_2^- + [\text{H}_2] + 2\text{H}^+ \rightarrow$ ".

Page 152, column 1, last line: " $\Delta G = -8,6 \text{ kcal/mol}$ " should read " $\Delta G' = -8.6 \text{ kcal/mol}$."
